AT Transport

Project I: An African Desert Soils Microbial Ecology Research Network **Project II:** Exploration for Novel Xylanases and Ligninases Produced by Actinobacterial Species for Biomass Valorization

1ST TUNISIAN-SOUTH AFRICAN INTERNATIONAL WORKSHOP "MICROBIAL ECOLOGY AND BIOTECHNOLOGY IN STRESSFUL ENVIRONMENTS"

4 - 6 November, 2016, Tunis, Tunisia Higher Institute for Biotechnology, Biotechpole of Sidi Thabet

Organized by

The Higher Institute for Biotechnology of Sidi Thabet, University of Manouba, Tunisia

The Laboratory of Microorganisms and Active Biomolecules Faculty of Sciences of Tunis, University of Tunis El Manar, Tunisia

In collaboration with

Center for Microbial Ecology and Genomics Genomics Research Institute, University of Pretoria, South Africa

&

Department of Biochemistry and Microbiology, University of Fort Hare, South Africa

And

Tunisian Society for Microbial Ecology
"Association Tunisienne d'Ecologie Microbienne" ATEM
